

## Case History #105

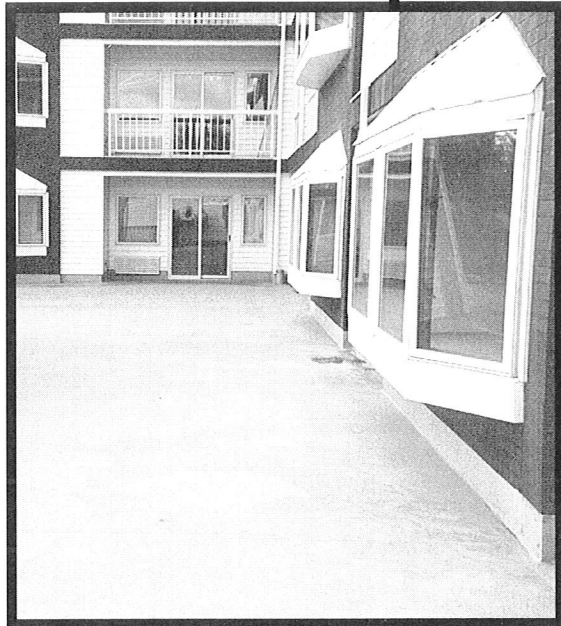

North America's premier  
waterproof vinyl flooring  
systems. Since 1974.

**Project:**

Waterford on South Hill  
5 - 2929 Waterford Drive  
Spokane, Washington 99202

**Date:**

Spring 1992

**Problem:**

As a new apartment complex under construction, they needed material that would double as roofing and decking over their kitchens. They also needed 110 outdoor decks covered with a maintenance-free product.

**Duradek Solution:**

**DURADEK CUSTOM WEDGEWOOD** (20 mil).  
**DURADEK ULTRA STEEL** (60 mil). The balconies were covered with **Duradek Custom**, as the six foot wide vinyl material required no seams. **Duradek Ultra** was applied over the living quarters for a total installation of 13,000 sq. ft.

---

**Applicating Contractor:**

Dewain Lund  
Sunset Decks  
N. 5718 Hays  
Newman Lake, WA 99025  
(509) 226-3264

**Job Contact:**

Bernie Neil-Manager  
(509) 536-2929

**Job Notes:**

Though liquid urethane was specified, **Duradek** was chosen because it allowed better co-ordination with the other trades. There were no hold-ups due to bad weather or time delays as there would have been with coating applications.
