WINNER FOR BEST IN OUTDOOR FLOOR WATERPROOFING: DURADEK

Duradek wins

Now celebrating its 30th anniversary, Burnaby-based Duradek Ltd. has become North America's most trusted name in outdoor floor waterproofing. The 2004 Consumer Choice Award, its third in a row, recognizes the firm's unique products that provide unrivaled protection for decks, balconies and exposed areas.

Duradek products have now covered more than 100 million square feet and are favoured by the construction industry and homeowners in Canada and the United States.

The original vinyl flooring for waterproofing decks, patios, balconies and other areas, Duradek offers maintenance-free,

permanent waterproof protection. Duradek is the decking expert member of Shell Busey's HouseSmart Referral Network.

Duradek's factory engineered products and professional, detailed installation techniques have set new standards for waterproofing.

Before Duradek, property owners and builders used liquid applied and concrete topping products, which leaked and cracked, resulting in expensive and time-consuming repairs.

Designed for strength and stability, Duradek has mildew inhibitors, UV stabilizers, and slip-resistant textured finishes. The fire-retardant and

chemical resistant product carries an industry-leading 10 year warranty. It is available in many colours, patterns and textures previously unavailable in outdoor waterproof flooring.

Duradek's Durarail aluminum rail and fence systems are also maintenance free, and do not rust, rot, peel, flake or blister. They are UV resistant and have industrial-strength powder coat finishes for durability. The systems are available in seven standard colours, and 180 custom colours to match any exterior design features.

The Consumer Choice Award signifies that Duradek has earned the trusted of consumers.
