PUP Post Topless Glass Kit System for High Style with Ordering Simplicity

PUP Post Kit brings ordering convenience for a system that allows for design flexibility with Topless Glass for luxurious, exceptional style.

PUP Post Topless Glass kit system for unobstructed views, design flexibility and ordering simplicity

- **Post Position:** PUP Post's revolutionary design allows for a 60° angle variance to accommodate any space.
- **Powder Coated with no VOC's:** Durable, low maintenance powder coated finish.
- **Style flexibility:** Choose clear panels for view-through railings, frosted for privacy or a combination of both for a unique, customized design.
- **Easy installation:** Simple and clean installation with concealed fasteners to hide rivets and screws.
- **Made to last:** 20 year structural warranty and 10 year limited powder coating residential warranty.
- **Easy to Order:** No need to list out individual parts - we only require project dimensions to supply you with all you need.

Kits come completely pre-assembled
2 Kit options: Inline/Corner Post or End Post

Components:

- 1 PUP post (US - 42" tall | Canada - 40" tall) with ^{NEW!} 4 x 4 x $\frac{3}{8}$ " Base plate
- Includes PUP Spacers and caps
- Accepts $\frac{3}{8}$ " or $\frac{1}{2}$ " tempered or polished glass (*glass must be purchased separately)

When purchased in our Kit package, PUP Post is available only in surface mounted option.
For fascia mounted [PUP Post](#), please order components individually.

Please check with local building inspector as top cap may be required.

Actual kit may not be exactly as shown in images – refer to component list for package inclusions.
