

# WATERPROOFING FOR FLOATING DECK SYSTEMS

SUNDECKS | ROOF DECKS | BALCONIES | PATIOS | STAIRS | POOL DECKS | WALKWAYS

## Reliable Waterproofing for Floating Deck and Roof Deck Surfaces Duradek's Plazadek System

When a more bullet proof wear surface is needed for high traffic balconies or roof decks, Duradek membranes remain the best waterproofing option with many installation and performance advantages over traditional roofing products.

Whether it is a deck over living space or an elevated deck with a patio or storage below, Duradek's proven performance is the perfect waterproofing solution in floating deck systems that utilize pedestals, sleepers, or direct application.

### Duradek's Plazadek System Provides:

- The dependable waterproof protection of Duradek below other wear surfaces,
- A building code approved roofing membrane made for decking applications,
- Professional installation by contractors trained in roof deck waterproofing.

### It is the Appropriate Alternative to:

- EPDM/Rubber Roofing
- Torch Applied Roofing
- Under Deck Waterproofing Systems

Compare Protected Roof Deck Systems at [duradek.com/Compare-Protected-Roof-Decks](http://duradek.com/Compare-Protected-Roof-Decks)

### Can be Used Under a Variety of Wear Surfaces:

- Composite/PVC/Wooden Deck Boards
- Concrete Pavers
- Floating Deck Tiles
- Stamped Concrete
- Almost any walkable surface that requires waterproofing underneath
