DURADEK™ NON-WOVEN BACKED 60 MIL PVC SHEET MEMBRANE

Duradek is an outdoor vinyl flooring system that provides an attractive, finished walking surface and roof-grade waterproofing in a single-ply, single product solution.

Since 1974 over 160 million square feet of Duradek outdoor vinyl flooring has been successfully waterproofing sun decks, balconies, roof decks and more.

The Duradek system is easily integrated into the building envelope to assist in managing water away from the structure, thus protecting the building and extending its life.

Duradek™ Non-Woven Backed 60 Mil Product Features

- 60 mil thickness
- 10 year waterproofing warranty
- 1 year appearance warranty
- Textured for slip resistance
- meets ADA requirements
- UV and mould inhibitors for extended life
