

# Introducing LEGACY CEDARWOOD Designer Vinyl Decking from Duradek™

A Natural Addition to the Successful Wood Grain Inspired Look of the Duradek Legacy Line

Surrey, BC, January 30, 2018: Duradek is proud to announce the addition of CEDARWOOD vinyl decking, the 4<sup>th</sup> addition to the popular Legacy line of vinyl decking in naturally inspired colors and textures.

Legacy CEDARWOOD provides homeowners a stylish option for decks and other outdoor surfaces that emulates the appearance of natural wood, but with the low maintenance waterproofing advantages of durable vinyl.

Exceptional styling brings unique strengths to the design with rich wood grain appearance and striations that add depth and character to this vinyl pattern which is both attractive and resistant to the elements.

Duradek Legacy Line - (l-r) PEBBLE BEACH, DRIFTWOOD, BARNWOOD

CEDARWOOD NEW for 2018

Following the success of the popular DRIFTWOOD and BARNWOOD wood grain looks of the Legacy line, CEDARWOOD provides a light, neutral color option for exterior designs that are trending to lighter tones.

Legacy CEDARWOOD's lighter tones also present a color option that will meet market demands for a cooler deck surface (in contrast with Legacy BARNWOOD that offers the deeper, warmer tones).

Like all Duradek Ultra vinyl options, Legacy CEDARWOOD meets North American building code requirements as both a waterproof membrane and pedestrian traffic surface in a single product solution.

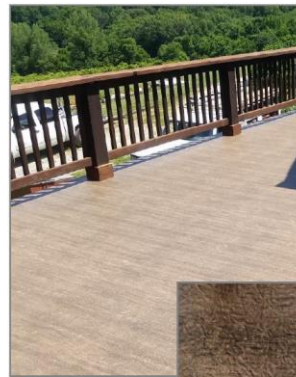

**Inspired by Nature...  
Designed to Withstand it.**

### Waterproofing Solutions Since 1974

Duradek was created to solve difficult waterproofing problems over 40 years ago and it is still one of the most reliable methods for long lasting, low maintenance waterproof decks and roof decks available on the market today.
