

## The Dek-Vision Visualizer Tool Experience by Duradek Has Grown

Easily Engage the Planning Process with Virtual Deck Designs

Surrey, BC, May 11, 2021: The *Dek-Vision* experience is now even better. Dek-vision by Duradek™ is the first online design tool for vinyl membranes to assist homeowners, Builders, and Remodelers in creating deck makeover plans. It has been updated with Duradek's newest color, Legacy Cedarwood, and is available on the Duradek website ([duradek.com](http://duradek.com)).

Duradek has also added a [video tutorial](#) to demonstrate how to get the most from your design experience with Dek-Vision. This informative 3-minute tutorial walks users through how to use the visualizer features, making getting started easier than ever.

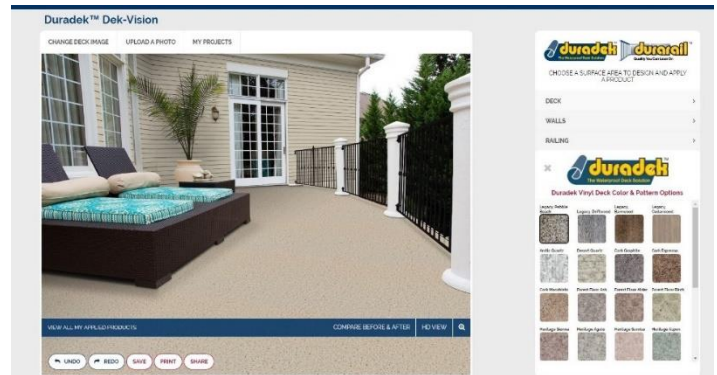

*Dek-Vision* is free to use and comes pre-loaded with 8 deck image options that cover a variety of the most common deck types. *Dek-Vision* allows users to experiment with the deck surface, the railing color, and even the siding to find the look that is just right for individual tastes.

Users can also upload a photo of the deck on their home and try all the options of Duradek vinyl deck patterns and colors to discover which ones will best match their exterior design. With a graph tool and a paint tool, users can have their deck image uploaded and set up as a template in a matter of minutes.

*Dek-Vision* is equipped with the complete color selection of Duradek vinyl deck membranes. With 26 color options in 10 different patterns, Duradek has the best selection in the vinyl decking industry. With so many great options to choose from, selecting the right vinyl for a deck is a *challenge that is made easier!*

Railings are an important part of a deck makeover project and *Dek-Vision* allows users to experiment with 9 standard colors offered by Durarail™ railings. The railing and siding features are limited to the pre-loaded deck images, which will provide a great example of how those exterior colors will blend in thousands of combinations.

Duradek invites users to share their virtual deck images. Please tag us on Facebook or Instagram (@Duradek) or Tweet @Duradekspert with the hashtag #DoltWithDuradek.

### Waterproofing Solutions Since 1974.

Duradek was created to solve difficult waterproofing problems over 40 years ago and it is still one of the most reliable methods for long lasting, low maintenance waterproof decks and roof decks available on the market today.
